HARDSHIP WAIVER AND OTHER EXCEPTIONS

I. GENERAL ELIGIBILITY REQUIREMENTS

To be eligible to participate at an OSSAA member school in athletic events a student must:

- A. Be enrolled in a secondary school grade level at a member school in courses, activities, or alternative programs in which credits are being earned, and appropriate academic progress is being made, toward graduation consistent with the requirements of the school and the State Department of Education.
- B. Have on file with the school an *OSSAA Eligibility Record Form* completed at the time the student first enrolled or reached a grade level at which the student is eligible to participate.
- C. Undergo an annual physical examination and have on file with the school a signed physical examination certificate or form as set forth by OSSAA Rule 1.
- D. Have concussion management paperwork completed and on file with the school.
- E. Have on file with the school a signed parental consent form as set forth in Rule 1.
- F. Comply with the minimum school attendance requirements as set forth in Rule 2.
- G. Comply with the minimum academic performance requirements as set forth in Rule 3.
- H. Comply with the standards for student conduct as set forth in Rule 4.
- I. Comply with the standards for maintaining amateur status as set forth in Rule 5.
- J. Comply with the Age Rule as set forth in Rule 1.
- K. Comply with the period of participation limits as set forth in Rule 7.
- L. Comply with all applicable laws and the Rules and Policies of the Association concerning participation, sportsmanship and conduct in connection with interscholastic athletics.

II. GUIDELINES

If a student meets the following guidelines you can be reasonably assured he/she is eligible to participate at your school (see Record Form for New Students).

- A. Will not be 19 years of age before September 1 for high school students and 9th grade students will not be 16 years old before September 1, 8th grade students will not be 15 and 7th grade students will not be 14 years old before September 1.
- B. Has not attended school eight or more semesters since the time he/she entered the 9th grade (15 days membership counts as one semester).
- C. Attended your school the previous year.
- D. Lives with both mother and father in your school district.
- E. Passed five credits the previous semester that count toward graduation. (See Exceptions for Block and Trimester)
- F. Is currently (within the semester) passing all classes (see exceptions for seniors).
- G. Is currently maintaining the ninety percent (90%) attendance record.
- H. Answers no to all questions on OSSAA Eligibility Record Form.

III. IMPACT OF TRANSFER OR CHANGING SCHOOLS AFTER ELIGIBILITY IS ESTABLISHED

An OSSAA Eligibility Record Form must be completed for any student who has transferred or changed schools. The student must have provided an official transcript from the school previously attended and be lawfully enrolled to participate in athletics at a school within a member school district or at a member non-public school. The student is not permitted to participate if the student was ineligible, or threatened with ineligibility, at the time that the student transferred or changed schools. If the student has transferred or changed schools after the first day of attendance for that school year, the student is not permitted to participate in athletics for at least fifteen (15) calendar days after the student's first date of attendance at the school, to allow time for required forms to be completed and for eligibility to be determined.

A student in the seventh or eighth grade remains eligible for junior high athletics after a transfer or change of schools as long as: (1) the student is not repeating all or any part of the seventh or eighth grade; and (2) the student has not been influenced to transfer or change schools for athletic purposes in violation of OSSAA Rule 9.

After completing the eighth grade, a student may transfer or change schools and establish athletic eligibility for grades nine through twelve when the student first participates in interscholastic athletics at the ninth grade level or above. The student is not eligible if the student has been influenced to transfer or change schools for athletic purposes in violation of OSSAA Rule 9. The student's eligibility for grades nine through twelve may also be affected if the student repeated all or any part of the seventh or eighth grade, so the receiving school must review the student's records and determine if those records disclose any repeat period.

A student who transfers or changes schools in grades nine through twelve after establishing athletic eligibility by first participation is ineligible to participate in varsity athletics during the student's first full year of attendance unless the student has obtained a waiver to allow for participation or meets other criteria for immediate eligibility as provided further in the OSSAA Rules.

If a <u>new student falls under one of the following categories you should check further into that student's eligibility:</u>

- A. Is living with someone other than who they lived with last year (Even if new person is a natural parent)
- <u>B</u>. Entered your school after the semester had officially begun (<u>the student may have had academic, attendance, or other eligibility issues at the prior school, or may be intending to repeat all or part of a grade previously completed).</u>
- C. Another residence is being maintained in a separate school district or designated geographic area.
- <u>D</u>. Answers yes to question(s) on the *OSSAA Eligibility Record Form*.

IV. APPLICATION FOR EXCEPTION FROM INELIGIBILITY DUE TO UNAVOIDABLE HARDSHIP OR OTHER CIRCUMSTANCES

As a part of the overall effort to preserve equitable participation opportunities, prevent the recruitment of students based on athletic skill or experience, protect students from exploitation, and discourage overemphasis on athletics to the detriment of other important educational programs, the Oklahoma Secondary School Activities Association (OSSAA) has established certain rules governing eligibility. OSSAA Rule 8 provides that a student who establishes athletic eligibility for grades nine through twelve at one secondary school and then transfers or changes schools is ineligible for varsity athletics for a full school year at the new school. Rule 8 also provides for a one-year period of ineligibility when: (a) a student has established eligibility for grades nine through twelve where the student's family is residing, and the student's family moves away from the area, and the student chooses to change to a school outside the public school district or designated geographic area in which the student's family is residing; or (b) a student moving from out-of-state after having participated in grade nine or above chooses to attend a member school outside the public school district or designated geographic area in which the student's family is residing. Other OSSAA rules also limit the number of years of participation and provide for age limits for the participant.

OSSAA recognizes however, that some students are compelled to transfer schools <u>or to choose a particular school at which they are ineligible under Rule 8 because of</u> hardships beyond the control of the student or the student's parents or guardian. OSSAA also recognizes that some students are prevented from completing grades at the expected age due to injury, illness or other circumstance beyond their control. OSSAA therefore provides for the granting of exceptions that would allow a student who would otherwise be ineligible to participate without delay if the student can be shown to meet certain criteria.

In some instances, imposing a period of ineligibility would not serve the purposes for which the general rule was created. A foreign student enrolling in a member school under a recognized international student exchange program generally will be attending the school only for one year, so allowing participation for that period would be consistent with the educational objectives of OSSAA's member schools and the exchange programs. In addition, there may be instances in which non-varsity participation opportunities are available at the school receiving the new_student, and allowing non-varsity participation similarly would not raise a threat of competitive inequities or exploitation. Exceptions allowing participation therefore may also be recognized in these circumstances provided there is no evidence that the student was influenced to transfer schools for athletic purposes.

By submitting an application for exception or waiver, the school and the student on whose behalf the application is submitted, and the parents, current custodial parent, or court appointed guardian with legal custody of the student, acknowledge and agree that the application shall be reviewed and evaluated by the OSSAA's Executive Director and staff, that the Executive Director or staff designee is authorized to conduct any further investigation or to request any supplementation of the application or supporting materials deemed necessary to the evaluation of the application, that the application shall be evaluated using the criteria set forth in this manual, and that the determination of the Executive Director shall be transmitted, in writing, to the principal or administrative head of the school submitting the application.

OSSAA forms for applying for an exception or waiver are located on the OSSAA website under the eligibility link. Before completing this application, the person or persons completing the form must identify the criteria that would support granting a waiver. Documentation demonstrating how or why the student's circumstances fall within those criteria must be gathered and submitted with the application.

HW2 OSSAA

V. INSTRUCTIONS FOR FILING HARDSHIP EXCEPTION FORMS

- A. Make certain you have current forms and destroy all other hardship forms.
- B. Duplicate the current blank forms as needed.
- C. Complete the appropriate *Hardship Eligibility Clarification Request Form* and the *Eligibility Record form* in the student's presence, and preferably in the presence of the student's parents, or custodial parent or court-appointed guardian with legal custody of the student, so that the information provided is correct.
- D. Determine if the student meets any of the hardship criteria before submitting the request.
- E. For a student who is changing or has changed schools after establishing eligibility for grades nine through twelve:
 - 1. Wait until the student is a legal student enrolled in your school before applying.
 - 2. The *Eligibility Record Form* shall be completed upon enrollment;
 - 3. Contact the school last attended and send that school the *Transfer Athletic Eligibility Information Form* to be completed and returned on the student;
 - 4. The Request for Hardship Eligibility Clarification must be accompanied by the *Eligibility Record* and the *Transfer Athletic Eligibility Information Form*, together with copies of all material relied upon in support of the request, including DHS or court orders, or the request will not be considered.
- F. Allow at least a 15-day period for a decision on the request.

VI. HARDSHIP EXCEPTION OR WAIVER CONSIDERATION CRITERIA

- A. Before submitting a Hardship Eligibility Clarification Request Form, the submitting school shall consider and determine whether the <u>change or choice of schools</u> was the result of any of the following occurrences or factors beyond the control of the student. The Request should indicate which of the following criteria are believed to be applicable. A description of the type of documentation and information that must be submitted in support of a request based on those criteria follows each of the stated criteria.
 - 1. An unstable home environment in which the physical and/or emotional health of the student is at serious risk.
 - Documentation must be submitted describing the student's situation, prepared and verified by a health or law enforcement professionally familiar with the student's home environment. Broad and vague claims of potential threats are not sufficient. The request must further state the address of the home in question, identify the principal residents at the address, and state the address of the home or residence facility in which the student currently is or will be residing, and identify the principal residents or supervisor at that location.
 - 2. A substantial negative change in the financial condition of the parents, or custodial parent or court-appointed guardian with legal custody of the student.
 - Documentation must be submitted verifying the current financial condition and describing how and when a change in financial condition occurred. If, for example, the change in financial condition is due to a change in jobs with a substantial decrease in compensation, documentation should be submitted verifying prior compensation, employer, and last date of employment at that compensation level, along with documentation verifying current compensation, employer and beginning date of current employment.
 - 3. Remaining in a school district where the student is established.

Documentation must be submitted with the Request explaining why a change of school districts would not be in the best interest of the student. If the student is no longer residing with the student's parents, or custodial parent or court-appointed guardian with legal custody of the student, then the Request must include documentation stating where and with whom the student is residing, identifying whether the student's current residence is owned, leased, or rented by the school or anyone associated with the school, and explaining how the student is being transported to and from school and school activities.

Note: If the student is: (a) residing with a school coach or other school personnel, or with someone associated with the school's athletic programs, or (b) the student's residence is owned or paid for by the school or someone associated with the school's athletic programs, or (c) the student is dependent on someone associated with the school's athletic programs for transportation to and from school, then the student may be deemed to have been induced to remain at the school in violation of OSSAA Rule 9 resulting in a loss of eligibility and other potential penalties to the school.

4. Placement in a different residence by order of court or a supervising government agency.

A certified copy of the order of the court or supervising government agency directing the removal of the student from the home in question and placing the student in another home or residence facility must be submitted. If the order does not identify the address of the home from which the student was removed, the address of the home or other facility in which the student has been placed, and the names, addresses and telephone numbers of any attorneys involved in the placement, then that information should be supplied in the application or other supporting documentation. A divorce decree, or a separation or temporary custody order, or an order establishing a guardianship, which grants custody to a parent or other person who has moved to or is living in a different residence, will not be sufficient, unless the decree or order includes an express finding by the court or agency that the student's health or safety would be at risk if the student remained in the prior residence, or that placement in a different residence and transfer of schools is necessary in the student's best interests.

5. A sincere desire to continue a course of study, program, or activity in which the student was actively involved <u>in the previous school year and</u> which is no <u>longer available at the school at which eligibility had been established.</u>

Documentation must be submitted describing the course of study, program, or activity that would be or has become unavailable, verifying the extent of the student's prior participation in that course of study, program, or activity, and confirming the unavailability of that course of study, program, or activity. A lack of advanced placement or honors classes in a particular subject, or a previous school's inability or refusal to offer courses in a subject area which are more advanced or more specialized than the courses already offered, will not be a basis for approving a waiver or exception.

6. An annexation, redistricting, or school closing affecting that student.

Documentation must be submitted identifying the school previously attended, describing the annexation, redistricting, or school closing at issue, and verifying how the student was affected.

7. Any other circumstance beyond the control of the student <u>and the student's family</u> which creates an unavoidable hardship for that student.

Documentation verifying the relevant facts and explaining the impact upon the student in question must be submitted. Consideration will be given only if special circumstances beyond the control of the student and the student's family create an unavoidable hardship. Exceptions will be a rarity.

B. The Request submitted must describe which of the above criteria apply to the student, explain why those criteria are applicable, and identify material or information submitted in support for applying those criteria. If more than one of the above-referenced criteria are applicable, then the Request should list all of the applicable criteria and all supporting documentation required to support those criteria should be submitted.

A hardship request should NOT be submitted if the Transfer Athletic Eligibility Information Form received from the student's former school, or any other reliable information, indicates that:

- 1. the student was barred from participating or otherwise was ineligible at the time of departure from the prior school, in which case the ineligibility issue at the prior school must be resolved before a request is submitted; if there is a question about whether the student was ineligible at the prior school, then the student's current school may contact the OSSAA;
- 2. the student was encouraged to transfer or select a school in violation of OSSAA Rule 9, in which case the current school must investigate further and be able to provide a written report concerning its investigation when and if a hardship request is submitted;
- 3. the student transferred due to discontentment with coaches or other personnel at the school at which eligibility was already established;
- 4. the student or a parent, or custodial parent or court appointed guardian with legal custody of the student, has knowingly given an incorrect residence address or any other incorrect information that would be relevant to a determination of the request.
- C. If a request is submitted without the records or materials necessary to evaluate whether the identified criteria are met, then the request will be rejected without further review. If a request is submitted with supporting documentation for some, but

HW4 OSSAA

not all of the criteria that the applicant is attempting to meet, then the application will only be considered on the criteria for which supporting documentation has been submitted.

D. Hardship waiver requests based solely on a student's parents separating or divorcing will not be considered or approved. When parents separate or divorce after a student's eligibility has been established for grades nine through twelve, the eligibility of the student will be at the school where the student was attending prior to the separation or divorce. A hardship waiver request may be considered if other criteria referenced above are met.

OSSAA recognizes that in some situations after <u>a</u> student has been residing with one parent for an extended period following a separation or divorce and established eligibility for grades nine through twelve while residing with that parent, the student may develop a sincere desire to reside with the other parent which is unrelated to any athletic considerations, and that the other parent may be residing at that time in a different and distant school district which would require the student to change schools in order to reside with the other parent. OSSAA staff may therefore grant a one-time waiver, without further action by OSSAA's Board of Directors, permitting eligibility for a student who, after establishing eligibility based on the residence of one divorced parent, has moved to the other divorced parent's residence in a different school district, provided that:

- (a) the student and each parent have certified in writing that the student is moving for the first time from one parent's residence to the other parent's residence in a different school district, and that the move from one parent to the other is not being made for athletic purposes;
- (b) the student and each parent further acknowledge and agree in writing that any subsequent move back to the original parent's residence and/or a subsequent transfer back to the student's former school will result in the loss of athletic eligibility, unless and until a basis for granting a hardship waiver request under one or more criteria referenced above has been demonstrated.
- E. Exceptions due to hardship will not be considered or approved in the following circumstances:
 - 1. Simple change in guardianship.
 - 2. Discontentment with school in which the student's eligibility has been established.
 - 3. Changing schools to take a course or participate in an activity not offered at the previous school, unless the transfer is necessary for the student to continue a course of study or activity that was discontinued at the previous school.
 - 4. Reinstatement of eligibility of a student after an incorrect address or any other incorrect information was provided in connection with a request.
 - 5. More than one residence is being maintained in circumvention of eligibility rules.

VII. EXCEPTIONS FOR OVER-AGED STUDENTS

A. Criteria that may be considered

The circumstances in which a student may be permitted to participate in athletics beyond the age limitations established under Rule 1 are very limited. The same criteria applied to hardship waiver requests made after a transfer of schools do not apply to requests to participate in athletics once a student's age exceeds the limits under Rule 1.

A waiver or exception to Rule 1 age limits is only granted upon proof that the student was delayed from starting school, or was held back from advancing from one grade level to the next, by circumstances beyond the control of the student and the student's parents (or custodial parent or legally appointed guardian). Even if a student qualifies for a waiver or exception to the age limitation, the student may not be permitted to participate in a particular activity if, in view of the student's size and development, the student's participation presents an obvious danger to other participants.

The circumstances in which a waiver or exception to Rule 1 may be granted include the following:

- 1. Readiness testing by the school at the kindergarten or first grade level demonstrated that the student was not yet prepared to begin school;
- 2. the student was designated as a transitional student at the first grade level;

3. the student is shown to have had a physical or mental disability that prevented or significantly delayed the student from making normal academic progress;

- 4. a serious injury or illness or circumstance beyond the control of a student is shown to have significantly delayed the student from making normal academic progress;
- 5. the student is shown to have had difficulties transitioning from a foreign language to instruction primarily in English which significantly delayed normal academic progress;
- 6. The student was prevented or significantly delayed from making normal academic progress due to a school's failure to provide special education classes, or the school's failure to properly place the student in special education classes.

Any application for a waiver or an exception to the age limitations must be accompanied by appropriate and credible documentation detailing the circumstances that prevented the student from beginning school at the expected age or which prevented or significantly delayed the student from advancing academically. Documentation could include testing results, medical records, doctor's reports, counselor's reports, individualized education plans, and school transcripts. Submission of a written summary describing the circumstances that prevented the student from advancing academically, without any adequate supporting documentation, is not sufficient to grant an exception.

B. Factors That Will Not Permit Exceptions for Over-Age Participation

- 1. The student already has participated in a sport in six different school years since entering the seventh grade, or the student has already participated in a sport in 3 different school years after beginning the seventh grade.
- 2. The student repeated a grade after beginning the ninth grade, unless that particular failure to make normal academic progress is shown to have been the result of the school's failure to provide or to properly place the student in appropriate special education classes, or to a serious injury or illness, or to difficulties transitioning from a foreign language to instruction primarily in English.
- 3. If the student's size and development is such that he/she could be an obvious danger to other participants.
- 4. The student is twenty years of age, or if the student is at the ninth grade level or below, the student is seventeen years of age.

VIII. EXCEPTION FOR ADDITIONAL PERIOD OF PARTICIPATION

A. Criteria That May Be Considered to Permit Additional Periods of Participation

The circumstances in which a student may be permitted another semester or year of participation in athletics beyond the periods permitted under Rule 7 are very limited. In particular, OSSAA member schools have concluded that allowing a "medical redshirt" period for a student who is prevented from participating in athletics due to illness or injury, but is able to complete academic work necessary to advance to the next grade level and progress normally toward graduation, is not appropriate and consistent with the objectives of the Association. In addition, the same criteria applied to hardship waiver requests made after a transfer of schools do not apply to requests for an additional semester or year of participation in athletics.

After beginning the seventh grade, a student generally is limited to participating in athletics during that school year and the five school years that follow consecutively after that school year. A student also is limited generally to participating in athletics in the ninth grade or below during three consecutive school years once that student begins attending the seventh grade. After beginning the ninth grade, a student generally is limited to participating in athletics during that school year and the three school years that follow consecutively after that school year. These limitations apply even if the student does not actually participate in athletics during any particular school year or semester.

If a student repeats all or a portion of the seventh or eighth grade and, in compliance with Rule 7, does not participate in athletics during that repeat period, then that repeat period is not counted against the six consecutive school years in which athletic participation is allowed. If a student participates in athletics while repeating all or any portion of the seventh or eighth grades, then that period of participation is counted against the total of three consecutive school years in which a student is permitted to participate in athletics at the ninth grade or below, and against the overall total of six consecutive school years in which athletic participation is allowed.

HW6 OSSAA

If a student repeats all or a portion of the ninth grade or a higher grade level, the student may only participate in athletic competition open to students at the ninth grade level and above during that repeat period, and may not participate in athletic activities limited to students in the ninth grade or below. This repeat period is counted against the total of four consecutive years in which a student is permitted to participate in athletic competition open to students in the ninth grade level and above, and against the overall total of six consecutive school years in which athletic participation is allowed. This repeat period is counted toward these totals regardless of whether or not the student participates in athletics during the repeat period.

After the student has begun the ninth grade, an exception allowing a student the opportunity to participate in athletics in an additional semester or school year may only be granted upon sufficient proof that circumstances arose beyond the control of the student and the student's parents (or custodial parent or court-appointed guardian with legal custody of the student), such as a serious and debilitating injury or illness, which prevented the student from completing academic work necessary to advance to the next grade level and make normal progress toward graduation. An injury or illness that merely prevented athletic participation, but did not prevent the student from completing academic work, would not be sufficient to allow an exception.

Applications for this exception must be accompanied by appropriate and credible documentation detailing the circumstances that prevented the student from advancing academically, such as medical records, doctor's reports, counselor's reports, and documentation detailing the student's academic progress and athletic participation to date, including school transcript and schedules. Submission of a written summary describing the circumstances that prevented the student from advancing academically, without any adequate supporting documentation, is not sufficient to grant an exception.

B. Factors That Will Not Permit Additional Period of Participation

- 1. If a student repeated all or a portion of a grade after making average or above average grades.
- 2. If a student participated in athletic competition during a repeat period.
- 3. If a student already had the opportunity to participate in an interscholastic sport at the ninth grade level or above during four different school years.

REQUEST FORMS THAT DO NOT HAVE ALL INFORMATION REQUIRED WILL BE DENIED DUE TO LACK OF INFORMATION!

IX. ELIGIBILITY FOR FOREIGN EXCHANGE AND INTERNATIONAL STUDENTS

A. Foreign Exchange Students

- 1. A foreign exchange student is an international student who attends high school in the U.S. To be eligible for interscholastic athletics such students must be under the auspices of and be placed with a U.S. host family by an international student exchange program that has been accepted for listing by the Council on Standards for International Educational Travel (CSIET) and is recognized by the U.S. Department of State. The foreign exchange program must assign students to host families by a method that ensures that no student, or his/her parents, school or other interested party may influence the assignment for athletic or other purposes. The foreign exchange student may not be selected or placed on any basis related to his/her athletic interests or abilities.
- 2. A foreign exchange student is considered to be placed with a host family when written notice of placement is provided by the exchange organization to the student and his/her parents, and to the host family.
 - a. Neither the school the student attends nor any person associated with the school shall have input into the selection of the student.
 - b. No member of the school's coaching staff, paid or voluntary, shall serve as the host family.
- 3. The foreign exchange student must possess a current J-1 visa, issued by the U.S. State Department.
- 4. The foreign exchange student must comply with all eligibility requirements set forth by Oklahoma Secondary School Activities Association.
 - a. The Registration Form must be completed and returned to the OSSAA office.

- b. The Age Rule must be satisfied.
- c. The student could not have been in high school more than three previous years.
- d. The student has not graduated.
- e. An approved student will not be eligible for more than 365 days.
- f. The student must be eligible academically and meet all other regulations concerning eligibility of the OSSAA.

B. Other International Students

An international student who is not under the auspices of and placed by a CSIET listed exchange program must meet the following requirements in order to be considered for interscholastic athletics eligibility:

- 1. The student must possess a current F-1 visa, issued by the U.S. Immigration and Naturalization Service.
- 2. The student must provide to the principal of the school he/she attends an official untranslated transcript and a transcript that is translated into English, by an acceptable agent or agency, which indicated work taken in all grades in which the student was enrolled.
- 3. The international student must pay tuition to the high school he/she attends as prescribed in Section 625 of U.S. Public Law 104-208.
- 4. No member of the school's coaching staff, paid or voluntary, shall serve as the resident family for the student. The student must request and receive a written exception allowing participation from the OSSAA office. <u>To receive a written exception</u>, the school and the student must demonstrate that:
 - a. the student has come to the United States primarily for the purpose of completing secondary school-level education;
 - b. the student was not assisted with travel expenses, and is not receiving assistance with school-related and living expenses, from any organization or non-family member by reason of the student's athletic skills, experience or interests;
 - c. the student's placement with a resident or host family were not influenced or based on athletic considerations;
 - d. the student otherwise is eligible under all other OSSAA rules relating to academics, age, periods of participation, attendance, conduct, and amateur status.

Generally the student also is expected to attend school in the public school district, or at a non-public school in the designated geographic area, in which the resident or host family are residing, or at the same school attended by the secondary school-age children of the resident or host family. If the student is attending a different school, then the school and the student need to demonstrate that attendance at the school was necessary due to the student's particular academic needs, and not because of the student's athletic skills, experience or interests.

X. EXCEPTIONS PERMITTING NON-VARSITY PARTICIPATION

- A. OSSAA recognizes that many member schools participate in competition limited to freshmen or junior varsity participants and those permitting transfer students in grades 9-12 to participate in such non-varsity competition in some instances would not cause competitive imbalances or subject those students to risk of exploitation for athletic purposes.
- B. If the transfer student's former and current schools both approve, in writing, non-varsity participation following transfer, then the transfer student may be permitted to participate in such non-varsity competition. After one year, the student would then be eligible for varsity competition under OSSAA Rule 8, provided the student was eligible under all other Rules.
- C. Approval on non-varsity participation is not effective until the receiving school has received the signed documentation and placed with the student's permanent records. If any issue has been raised about the student having been influenced to transfer for athletic purposes in violation of OSSAA Rule 9, the written approval should not be given. The student's former school or new school must investigate the issue, and the student should not be permitted to participate in non-varsity competition. Any evidence gathered in the investigation by the schools must be submitted to OSSAA, and if immediate eligibility for non-varsity competition is still sought, a written request for exception must be submitted on behalf of the student. A student transferring after the first day of classes will not be eligible until the above requirements have been met, the Changing Schools/Athletic Participation Form has been completed and student has satisfied the mandatory 15 calendar day sit out period.

HW8 OSSAA

Hardship waiver requests that have been denied by OSSAA Staff can be appealed to the <u>intermediate appeals panel</u>, as <u>provided in OSSAA Rule 20</u>, section 3. An adverse determination by the intermediate appeals panel may be appealed <u>to OSSAA's</u> Board of Directors at their next regularly scheduled Board Meeting. A \$100.00 fee to cover administrative costs of an appeal <u>to OSSAA's Board of Directors</u> must be received by school check, cashiers check, or money order no less than 3 business days prior to the Board meeting. If monies are not received 3 business days prior to the meeting, the appeal will not be put on the Board agenda.
